INDEX to Volume I

	page
Acetylcholinesterase	
levels in brains of fishes from polluted water	198
Aflatoxin	
suggested chromosomal studies	205
Algae	
effect of surfactants on	225
Analysis	
automated determination of orthophosphate	90
2,4-D residues in animal products	104
identification of 2-chloro-1-naphthyl acetate	172
pentachlorophenol in human urine	257
persistent pesticides	16
simple evaporation technique	169
Bacteria	
effect of 2,4-D on different metabolic types	108
effects of surfactants on	219
Carbamates	
metabolites formed by rat liver microsomes	59
Dichlorobenzophenone	
determination by thin layer chromatography and oscillopolarography	181
DDT	
contamination of feed grains and forages	212
in milk	21
rate of transfer from blood	187
2,4-D	
determination in animal products	104
effect on different bacteria	108
Dieldrin	
photoisomerization product from	127,133
storage in the rat	6
Dithiocarbamates	
thin layer chromatography of	76
Drugs	
effects on dieldrin storage	6
Endrin	
photoisomerization product of	133
Fungicides	
thin layer chromatography of	76
Fish	
effects of combinations of insecticides on	97
cholinesterase levels in brains of	198
Gas chromatography	
determination of Zinophos in soil	208
forced volatilization cleanup	237,245
pentachlorophenol in human urine	257
thermionic detector for organophosphorous compounds	141,149,159
total chloride by microcoulometric	39
of Toxaphene	1,70

Heptachlor
o,p' Kelthane identified as 29
Kelthane
determination by thin layer chromatography and oscillopolarography 181
o,p'isomer confused as heptachlor 29
Maleic hydrazide
insect toxicology of translocated 251
Methyl parathion
persistence on sunflower seeds 86
Milk
2,4-D determination in 104
DDT secretion into 21
measurement of Toxaphene in 70
Neutron activation analysis
apparent organobromine compounds in plants by 121
Organobromine compounds
apparent in plants by neutron activation analysis 121
Organochlorine pesticides
forced volatilization cleanup 237,245
Organophosphorous pesticides
residues in sorghum and bermudagrass 46
Organophosphorous compounds
sodium thermionic detector sensitive for 141,149,159
Oscillopolarography
determination of Kelthane and its dichlorobenzophenone by 181
Parathion
in canned peaches by thin layer chromatography 175
Pesticide residues
2,4-D determination in animal products 104
DDT secretion in milk 21
Dieldrin storage as effected by drugs 6
forced volatilization of organochlorine 237,245
forced volatilization cleanup 237,245
o,p' Kelthane in orange rind extracts 29
Maleic hydrazide translocation and insect toxicity 251
Methyl parathion in sunflower seeds 86
organophosphorous insecticides in sorghum and bermudagrass 46
Parathion detection in canned peaches 175
Pentachlorophenol determination in human urine 257
Toxaphene determination in milk, fat, blood, and alfalfa 70
Photoisomerization
Endrin 133
Dieldrin 127,133
Pentachlorophenol
determination in picogram amounts in human urine 257
Rat
carbamate metabolites formed by liver microsomes 59
drug effects on Dieldrin storage 6

Soil
effect of surfactants on bacteria of 219
determination of Zinophos residues in 208
Surfactants
effect on soil bacteria 219
effect on stream algae 225
Synthesis of
2-chloroethyl-1-naphtyl acetate 172
Thermionic detector
use in gas chromatography of organophosphates 141,149,159
determination of Zinophos in soil using 208
Thin layer chromatography
determination of Kethane and its dichlorobenzophenone by 181
Thin layer chromatography (cont.)
of dithiocarbamates 76
of parathion in canned peaches 175
separation of submicrogram amounts of pesticides by 78
Toxaphene
gas chromatography of 1,70
in milk, fat, blood, and alfalfa hay 70
Toxicity
of translocated Maleic hydrazide to insects 251
of photoisomerization products of Dieldrin and Endrin 133
